

I want the Do Not Call in New Jersey to stand as it is. I do not appreciate being called during dinner or late in the evening by telemarketers who are trying to sell me something that I don't want. I feel sorry for them, but some are rude and won't take no for an answer. I pay an extra monthly fee to keep my telephone number unlisted and don't appreciate my number being sold by telemarketers. So the Do Not Call List has stopped many of the calls. Unfortunately, I don't think it's strong enough. I don't like the fact that some groups are still allowed to call.
